AUDIBEL®

Fit for you.

At Audibel, we believe that better hearing leads to better living.

A4i™ hearing aids, now available in our smallest Made for iPhone® style, help you stay connected to the people and things you love most.

A4i is Audibel®'s most advanced technology with supreme sound quality and premium features, customizable to fit your unique hearing needs and enhance your listening experiences.

AUDIBEL® **A4i**™

Made for staying
connected.

**Our latest Made for iPhone
hearing aids and our easy-to-use
TruLink Hearing Control app**

are engineered to work specifically with your iPhone, iPad,[®] iPod touch[®] and Apple Watch.[®] Together, A4i and TruLink[®] deliver the most personalized hearing experience ever, and are designed to:

- ✓ Deliver pristine audio and exceptional listening clarity
- ✓ Help you better understand conversations and hear comfortably in any noisy environment
- ✓ Stream phone calls, music and more, directly from your iPhone to your hearing aids
- ✓ Eliminate buzzing and whistling

Made for better connections.

A4i intuitively connects to your iPhone, iPad and iPod touch via Bluetooth technology and Audibel's easy-to-use TruLink app.

TruLink offers additional features designed to enhance anywhere you go — so you can easily enjoy everything you do.

Personalized Control

Personalized Control in the TruLink app lets you make adjustments to SoundSpace and Noise Manager to suit your preferences in different listening environments.

Phone Calls

Answer your calls with the touch of a button and hear an entire conversation streaming directly to your A4i hearing aids via Bluetooth® technology.

Remote Control

Using the remote control feature in the TruLink app, you can change volume and switch memories on your hearing aids right from your iPhone.

TruLink Memories

You can create up to 20 TruLink Memories using the SoundSpace tool on the TruLink app.

You can even geotag memories using the built-in GPS on your iPhone. A geotagged memory will recognize where you are and automatically adjust your A4i hearing aids when you enter that space. For instance, a geotagged “coffee shop” memory will automatically activate when you walk into your favorite coffee shop.

Auto Experience Manager

Automatically adjusts your A4i hearing aids’ loudness over time to help you transition to your new hearing experience in the most comfortable way possible.

Pristine Audio Streaming

A4i hearing aids provide direct streaming of phone calls, music and media from your iPhone — so you can enjoy clear communication and pristine audio streaming any time, anywhere, for impressive, immersive sound.

Apple Watch Compatible

Use the TruLink app for Apple Watch to control volume, change memories and mute your hearing aids right from your wrist.

TruLink Hearing Control app for Apple Watch provides you with even more ways to easily control and personalize your hearing experience.

Live Microphone

Simply set your iPhone nearby, turn on the microphone feature and stream conversations directly to your A4i hearing aids. You may also record, play back and email audio as it happens or save recordings to listen to later.

Siri Integration

You can have Siri® read texts and emails directly to your A4i hearing aids.

Find My Hearing Aids

Easily locate lost hearing aids using the Find My Hearing Aids feature, with both a location and a timestamp. A signal detector sends a stronger or weaker signal based on how close you are to locating your A4i hearing aids.

Real-time Notifications

Notifications for phone calls, texts, emails or other apps can be streamed directly to your A4i hearing aids.

TruLink Adaptive Car Mode

With TruLink's Adaptive Car Mode, A4i hearing aids will automatically change to a setting designed to reduce the annoying sounds of driving and enhance your overall driving experience.

Made for music lovers.

**Tastes in music may be unique,
but the power of music is
universally understood.**

Thanks to the processing power in A4i hearing aids, you can enjoy your favorite music in a whole new way with features that:

- ✓ Focus on music audibility, desired loudness and sound quality
- ✓ Make soft music sounds audible
- ✓ Allow on-demand and automatic control

The result is listening enjoyment for the way you want to hear music – automatically and in your control.

*“Life seems to go on without effort
when I am filled with music.”*

- George Eliot

Made to deliver the very best.

YOU WANT:

To hear comfortably in
challenging environments

Enhanced phone
communication

Hearing that
happens intuitively

Hearing that's
personalized for you

No buzzing or whistling

Durable, dependable
hearing aids

Music the way it was
meant to be heard

Customizable tinnitus relief

AUDIBEL A4i DELIVERS:

Acuity™ Directionality, designed to improve speech audibility in difficult listening situations along with **Speech Shift**.

Direct streaming of phone calls from your iPhone to your hearing aids to enable clear and comfortable conversations.

Geotagged memories that automatically switch modes when the GPS feature in your iPhone detects you are in a tagged location. For example, a “home” memory activates when you arrive at home.

Personalized Control in the **TruLink** app that lets you make adjustments to **SoundSpace** and **Noise Manager** to suit your preferences in different listening environments.

Audibel's best-in-class feedback cancellation system providing feedback-free, comfortable listening all day long.

Surface™ NanoShield, our pioneering water, wax and moisture repellant system, to protect and ensure durability and dependability.

A whole new way to experience music — adjustable via the TruLink app. Now you can hear every note the way the artist intended — with pure, refined sound quality.

Advanced **Multiflex Tinnitus Technology**, adjustable via the TruLink app, to bring relief to those who suffer from ringing in the ears.

Features may vary by technology level.

Made for everywhere you are.

From the beginning, our hearing solutions have enabled people to hear better in challenging environments and live a better life.

With A4i hearing solutions from Audibel, you'll begin to hear all the subtleties of life: the inflection in the voice of a spouse or the nuances in the notes of a favorite song. Whether it's one-on-one or in the most crowded places, you'll hear the world around you.

What you need will depend on how busy and active you are, and what types of environments you frequent.

Listening environments

What is your hearing lifestyle?

Our lineup of products enhances many different listening environments. What you need depends on your lifestyle and how active you are.

Compare the listening environments on the chart inside.

Made for your style.

Made for iPhone

TruLink, partnered with A4i, is easy and intuitive to use on your iPhone, iPad, iPod touch or Apple Watch.

Made so the world may hear.

Our Founder and CEO, William F. Austin, has always held a strong belief that the gift of better hearing results in a fuller and better life.

We prove our dedication to this philosophy daily, through our support of Starkey Hearing Foundation.

The gift of hearing opens up new worlds of opportunity. It connects individuals to life and helps them realize they can accomplish more than they ever thought possible. Starkey Hearing Foundation uses hearing as a vehicle to change lives around the world.

Made to help millions.

100+
COUNTRIES

**MORE THAN
1 MILLION
PEOPLE IN NEED
SERVED**

**COUNTLESS
LIVES CHANGED**

Spread hope from ear to ear. To learn more or give the gift of hearing, visit StarkeyHearingFoundation.org.

Made for a happy, healthy life.

Hearing loss isn't just an ear issue, it's a quality of life and health issue.

It can occur for natural reasons, but other causes might surprise you.

Older adults*

with impaired hearing may have a **shorter lifespan** than their peers without hearing problems.¹

*70 years and older

People* with a hearing loss experience a **30-40% faster decline in cognitive abilities** compared to peers without hearing loss.²

*75 years and older

People with low-frequency hearing loss are considered **at risk** for cardiovascular events.³

Adults* with untreated hearing loss

were more likely to report depression, anxiety and paranoia than peers who wore hearing aids.⁴

*50 years and older

Over 360 million of the world's population have disabling hearing loss.⁵

Adults with untreated hearing loss are more likely to develop dementia.⁶

There is a significant association between **high blood pressure and untreated hearing loss.**⁷

People with mild hearing loss are **3x more likely** to have a history of falling.⁸

90-95%

of people with hearing loss can be treated with hearing aids.⁹

A4i hearing aids are made so people with hearing loss won't have to miss a single sound that brings them joy. They are made knowing better hearing leads to better living.

Simply put, A4i hearing aids are made for life.

A4i and TruLink are compatible with iPhone 7 Plus, iPhone 7, iPhone SE, 6s Plus, iPhone 6s, iPhone 6 Plus, iPhone 6, iPhone 5s, iPhone 5c, iPhone 5, iPad Pro, iPad Air 2, iPad Air, iPad(4th generation), iPad mini 4, iPad mini 3, iPad mini with Retina display, iPad mini, iPod touch (5th generation) and Apple Watch. Use of Apple Watch requires iPhone 5 or later. "Made for iPod," "Made for iPhone," and "Made for iPad" mean that an electronic accessory has been designed to connect specifically to iPod, iPhone, or iPad, respectively, and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Please note that the use of this accessory with iPod, iPhone, iPad or Apple Watch may affect wireless performance. Apple, the Apple logo, iPhone, iPad, iPod touch, FaceTime, Apple Watch and App Store are trademarks of Apple Inc., registered in the U.S. and other countries.
